Our leading gas furnaces offer these features:

Variable-speed blower motor produces consistent airflow, preventing temperature swings

SilentComfort™ technology for peace, quiet, and comfort

Patented clamshell design to reduce air leakage from the unit, sending more heated air to the home

Fully digital product for more accurate and efficient performance

Enhanced humidity control for incomparable comfort

Dual-fuel compatible with Lennox® heat pumps for added cost savings

Our 2025 compliant systems are equipped with a Refrigerant Detection System (RDS) to ensure safe operation

	The Quietest and Most Efficient Furnace Available SLP99VK
Compliant with 2025 Refrigerant Regulations	✓
Annual Fuel Utilization Efficiency (AFUE)	Up To 99%
Ultimate Comfort System™ Product	✓
Heat Stages	Variable-Capacity
Blower Motor	High-Efficiency Variable-Speed
Precise Comfort® Technology	✓
ENERGY STAR® Certified[17]	✓
Duralok Plus™ Heat Exchanger	✓
Duralok™ Heat Exchanger	
Patented Burner Box	✓
Fully Digital	✓
Heat Exchanger Limited Warranty[3]	Lifetime

California Only: These furnaces do not meet the South Coast Air Quality Management District (SCAQMD) Rule 1111 NOx emission limit or the San Joaquin Valley Air Pollution Control District (SJVAPCD) NOx emission limit. For more details, visit Lennox.com/terms-and-conditions.

Annual Fuel Utilization Efficiency (AFUE)

Measures how efficiently your furnace uses fuel. The higher the AFUE, the more energy-efficient it is.

Duralok

A heat exchanger built for Lennox' standard-efficiency (80%) condensing gas furnaces that's made of high-quality heavy gauge aluminized steel to ensure high reliability and efficiency.

Duralok Plus

A heat exchanger built for Lennox' high-efficiency (90%) condensing gas furnaces that's made of high-quality heavy gauge aluminized steel to ensure high reliability and efficiency.

Precise Comfort® Technology

Finely-tunes and adjusts cooling output in tiny increments, perfectly matching your energy use with your comfort, making it the highest-efficiency, variable-capacity furnace available.

Fully Digital

A truly digital product is designed to pair with the Lennox S40 Smart Thermostat as part of a fully communicating home comfort system. Sensors in the equipment allow the thermostat to diagnose issues and automatically make system adjustments to more accurately and efficiently maintain temperature, humidity and air quality.

Dual-Fuel Compatibility

An HVAC system that pairs an electric heat pump with a gas furnace and alternates between the two fuel sources to maximize comfort and efficiency.

2025 Compliant Refrigerant

These products are compliant with 2025 EPA regulations for lower global warming potential (GWP) refrigerants. The Lennox choice of 2025 Compliant Refrigerant has a lower GWP than its predecessor and is formulated to provide excellent, reliable performance of your system for years to come.

Ultimate Comfort System™ Product

Combines the best of the Dave Lennox Signature® Collection to create an unprecedented whole-home comfort system that seamlessly and intelligently works together to stay finely tuned to your home and deliver consistently clean, perfect air.

ENERGY STAR® Certified

HVAC equipment with the ENERGY STAR label meets or exceeds federal guidelines for energy-efficient performance.

Variable-Speed Blower Motor

Equipped with an efficient variable-speed blower motor with the ability to slowly ramp the airflow up or down to provide consistently even temperatures as it only produces the necessary amount of airflow at any given time.

Warranty Your Way™

For eligible Dave Lennox *Signature*® Collection, homeowners have the opportunity to obtain the default 2 years parts only extension (for a total of 12-years parts only coverage) or, in lieu of that option, they have the opportunity to receive 3 years of labor coverage (for a total of 10 years parts and 3 years labor). Other terms, conditions, and exclusions apply. For more information, visit www.Lennox.com/WarrantyYourWay.

How does single-stage, two-stage & variable-capacity work?

72°

Single-Stage

Unit is either on or off, creating wide temperature swings.

72°

Two-Stage

Unit runs at either low or high speed, using the lower speed 80% of the time.

72°

Variable-Capacity

Unit runs at low most of the time, using only the amount of energy necessary to meet comfort need.
