Lennox[®] Smart Thermostats offer these features:

One-Touch Away Mode easily sets back heating and cooling points to save energy

Our smart thermostats effortlessly integrate with a range of smart home devices—from premium smart home systems like Control4 to popular virtual assistants like Amazon Alexa, Apple HomeKit, and Google Assistant.*

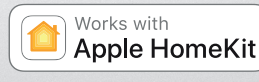

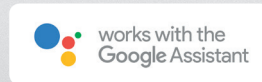

Schedule IQ Technology combines with Smart Away[™] Mode to learn your routine and create an energy-optimizing schedule of operation.

Set it like you want it. Feels Like[™] considers the humidity levels to deliver the temperature you want to feel, rather than the temperature you set

Control your ventilation systems through your Lennox Smart Thermostat, providing cleaner, fresher air to your home without the need for an additional control

Control your thermostat remotely using your smartphone and the Lennox Smart Thermostat app (S40) or iComfort Thermostat app (E30 and M30)
