

Elite Series Large Split Systems provide superior comfort and energy efficient heating and cooling for a variety of spaces. These specially designed systems deliver leading reliability and simplified installation and maintenance.

**PURE COMFORT**

Featuring smart design features and high-quality components, the Pure Comfort™ system offers superior comfort and energy savings

**ADVANCED CONDENSATE MANAGEMENT**

The Advanced Condensate Management™ System uses an innovative design to control condensation and keep moisture where it belongs.

**SIMPLE SERVICE**

The Simple Service™ system helps ensure ease of installation and maintenance to make every service call easier
