

RAIDER[®] ROOFTOP UNITS

**READY WHEN
YOU ARE.**

COMMERCIAL SOLUTIONS

WHEN IT HAS TO BE DONE RIGHT, CHOOSE RAIDER®.

Lennox prioritizes quality emergency replacement products that are built to last. As the only direct- to customer OEM, you can rest easy knowing your solution is not only ready to ship, but you are also getting a top-quality product that is designed and tested to run strong in the extremes - heat, cold, rain, or shine.

READY WHEN YOU ARE

Engineered for dependability and strategically stocked across North America, Raider® delivers a high-quality HVAC replacement—fast. With backward compatibility for one of the industry's most common footprints, installation is seamless, minimizing downtime and disruption. When it has to be done right, choose Raider®.

REPLACEMENT COMPATIBILITY

Designed for flexibility, Raider® rooftop units easily adapt to various applications and offer hassle-free replacement compatibility.

- **Compatible with one of the industry's most widely used footprints**, eliminating the need for an adaptor curb
- **Lightweight design** eliminates the need for structure analysis and reduces roof load on replacement jobs
- **Utilizes existing utility connections** in many replacement jobs

ON HAND, ON DEMAND

Expanded manufacturing distribution ensures Raider® rooftop units are stocked and backed by dedicated local support for fast quotes and quick turnaround.

- **Increased manufacturing capacity** of emergency replacement rooftop units
- **Stocked in 100%** of all Commercial distribution facilities in North America
- **Dedicated local support** focused on quick quote turnaround

ROOF READY

Raider® Rooftop units are designed roof ready to quickly fit your application needs. These units come with a range of convenient features that make installation quick and easy.

- **Product line consisting of** 3-12.5 ton gas-electric and electric-electric, and 3-10 ton heat pump models
- **Simplified maintenance** with an accessible gas compartment, compressor access panel and tool-less filter access
- **Full-perimeter base rail** provides greater structural integrity, so the unit is easier to handle when rigging and transporting

RAIDER® ROOFTOP UNIT

- 1 **Environ coil system** uses up to 52% less refrigerant, is up to 59% lighter and has up to 20% fewer brazed joints than typical units.
- 2 **Full-perimeter base rail** provides greater structural integrity, so the unit is easier to handle when rigging and transporting.
- 3 **Scroll compressor** standard on all units for reliable, long-term operation.
- 4 **High-pressure switch** Improves reliability by safeguarding compressor from extreme operating conditions.
- 5 **Fork slots** on three sides make it easy to pick up and transport units from almost any angle.
- 6 **Large gas access panel** provides easy access to all gas components.
- 7 **Additional gas heating tubes** allow lower temperatures per burner for increased reliability, while providing the same heating comfort.
- 8 **MSAV supply fan** achieves a higher level of energy savings and comfort control with blower speed modulation (standard on 10 to 12.5-ton models).
- 9 **Power entry** electrical lines can be brought through the unit base or horizontal access knock-outs for fast, easy installation.
- 10 **Electrical connections** match existing connections on many popular models, making replacement easier.
- 11 **Unit footprint** is compatible with 20+ years of existing units, eliminating the cost of an adaptor curb in many replacement jobs.

Toolless filter panel allows easy replacement of filters without the need for tools (not shown).
