APPROVALS AND WARRANTY

APPROVALS

- Filters - Minimum Efficiency Reporting Value based on ASHRAE 52.2
- All filters are certified to UL 900 standard for flammability only and Class 2 in accordance with ULC S111

WARRANTY

- HCC cabinet and HCXF reusable filter box
- Limited five year limited warranty in residential applications
- Limited one year in non-residential applications

NOTE - Filter media is not covered.

NOTE - Refer to Healthy Climate Equipment Limited Warranty certificate included with cabinet for specific details.

FEATURES

APPLICATIONS

NOTE - Cabinet and Filter must be ordered separately.

- High performance filtration with a narrow 7 in. cabinet
- Pleated filter design allows maximum air flow and filtration efficiency
- Multi-position cabinet is available for installation on the return air opening of warm air furnaces and air handlers
- Cooling applications up to 5 tons
- Unit can be installed in upflow, downflow or horizontal unit applications
- Silent operation
- Requires no electrical component service
- Generates no ozone
- Constant blower operation will achieve the best air cleaning results
- No duct transition needed for most furnace applications
- See Match-Up Table for additional details on page 9

INSTALLATION CONSIDERATIONS

- A 25 in. clearance in front of the air cleaner is required to allow removal of filter media
- Due to the flue location on downflow furnaces, the front of the air cleaner must be installed to the side or rear of the furnace cabinet for filter access
- If installed in a confined space, service clearance may be restricted
- If an atomizing spray type humidifier is also used, it must be installed downstream from the air cleaner
- If a UV germicidal light is used in the system, maintain a minimum distance of 6 ft. from the air cleaner if they are in direct line of sight to one another
- Maintain a minimum of 3 ft. if using a 90° bend or turn in the duct

CABINET

- Constructed of pre-painted cold rolled steel
- Will withstand 400 lbs. static weight, enough to support the weight of a typical furnace and indoor coil or air handler
- Tool-less access door allows quick and easy replacement of filter media
- Mounts in any position
- Air flow direction through the cabinet can be changed by re-positioning the filter
- Arrows on filter indicate air flow direction
- Shipped compact and requires minimum field assembly
- Cabinet panels snap together
- No tools required

FILTER MEDIA

Carbon Clean 16® (MERV 16) Box Filters

- 50% first-pass reduction of ozone
- Carbon coated fiber matrix reduces odors
- Hospital inpatient care/general surgery level filtration
- Removes 99% of airborne dust, dirt and pollen and filters more than 95% of airborne breathable particles
- Removes over 90% of ultra-fine particles down to 0.01 micron, including viruses and bacteria
- Double-wall beverage board frame for rigid construction
- Disposable
- Pleated

MERV 13 Box Filters

- Removes 90% of airborne dust, dirt and pollen and filters more than 85% of airborne breathable particles
- Double-wall beverage board frame for rigid construction
- Disposable
- Pleated

MERV 11 Box Filters

- Removes 85% of airborne dust, dirt, pollen and other contaminants
- Double-wall beverage board frame for rigid construction
- Disposable
- Pleated

Expandable Filter Kits (MERV 16 and MERV 11)

- Same features as MERV 16 and MERV 11 filters above
- All kits consist of an expandable filter media and reusable filter box frame
- Double-wall beverage board filter flaps on filter media and rigid reusable top, bottom and side frame pieces for rigid construction
- Filter kit is shipped compact for field assembly
- Top, bottom and side frame pieces snap together with filter media inside
- No tools required
- MERV 16 kits include reusable filter spacers
