

COMMERCIAL TRAINING TOOLBOX TIPS

Use the Lennox CORE Service App to Setup and Troubleshoot Model L and Enlight Units

Applies to Lennox Model L and Enlight Rooftop Units 3-25 tons

Helpful Resources

1. LennoxCommercial.com or LennoxPros.com – technical literature, product information, and online training
2. CORE Service App Reference Guide. Click [here](#) to download.
3. YouTube videos. Click [here](#) to view a listing of Model L and CORE videos.
4. CORE Controller Online Technical Training. Click [here](#) to log into LennoxPros.com and start the training.

Required Tools

Download to your mobile devices by scanning these QR codes.

Commissioning & Startup

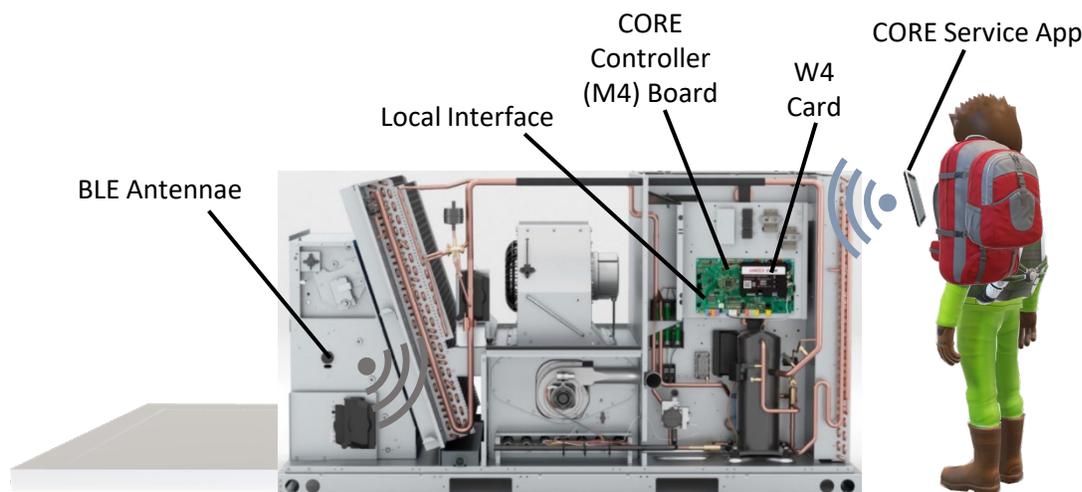

Proper commissioning and startup of the Model L unit requires the use of the CORE Service App. Startup technicians use the CORE Service App to perform test and balance, configure equipment, and other settings.

Troubleshooting

Diagnostic alerts display in the CORE Service App. Service reports and logs are generated using the CORE Service App. All component tests are performed using the CORE Service App.

Mobile Device Requirements

Apple iOS Requirements: iPhone and iPod touch iOS11.0 or later, iPad iPadOS 11.0 or later.
Android Current Version: 1.00.926.0 and up.
