**APPROVALS AND WARRANTY**

**WARRANTY**

- Heat Exchanger - Aluminized steel - ten year limited
- All other covered components:
  - Five year limited - Residential installations
  - One year limited - Non-residential installations
- NOTE - Refer to Lennox® Basic Limited Warranty at [www.Lennox.com](http://www.Lennox.com) for additional details.

**APPROVALS**

- CSA International certified
- Certified for natural or LPG/Propane gas
- Units are approved for vertical or horizontal venting

## FEATURE HIGHLIGHTS

1. Heavy Gauge Steel Cabinet
2. Tubular Heat Exchanger
3. Inshot Burner Assembly
4. Gas Control Valve
5. Separated Combustion
6. Combustion Air Inducer
7. Combination Ignition/Fan Timer Control
8. Direct Drive Fan

## FEATURES AND BENEFITS

### APPLICATIONS

- Horizontal unit heaters are low profile, compact in design and easy to install
- Steady State Efficiencies - 82%
- Ideal for economical heating systems in garages and non-confined living spaces
- Shipped completely assembled with controls factory installed and wired
- Hanging brackets are shipped loose for field installation
- Test operated at the factory to ensure proper operation and dependability

**NOTE** - Installer must locate unit, make unit gas supply, combustion air, flue, electrical connections and mount thermostat to complete job.

### CABINET

- 1 • Constructed of pre-painted heavy gauge cold rolled steel
- Hinged, reversible door for easy access
- Adjustable louvers are furnished on cabinet for control of air flow direction
- Wiring junction box is conveniently located outside unit cabinet for easy field wiring connections
- Hanging brackets for suspending unit are furnished for field installation
- Unit may be rotated 180 degrees (top for bottom) for ease of installation of gas, electrical and flue locations

### HEATING SYSTEM

- 2 **Tubular Aluminized Steel Heat Exchanger**
  - Tubular heat exchanger is constructed of aluminized steel for superior resistance to corrosion and oxidation
  - Curving design of heat exchanger allows complete exposure of heating surfaces to supply air stream
  - Dimpled tubes with wrinkle bends allow for maximum heat transfer
  - Compact design reduces space requirements in unit cabinet
  - Heat exchanger has been laboratory life cycle tested
- 3 **Inshot Burner Assembly**
  - Aluminized steel inshot burners provide efficient trouble free operation
  - Burner venturi mixes air and gas in correct proportion for proper combustion
  - Burner assembly is removable from the unit as a single component for ease of service
- 4 **Gas Control Valve**
  - 24 volt redundant combination gas control valve combines manual shut off switch (On-Off), automatic electric valve (dual) and gas pressure regulation into a compact combination control
- 5 **Separated Combustion**
  - Combustion air is separate from the air in the heated space
  - Using outside air for combustion prevents dirt, lint, dust and other contaminants in the heated space from entering the combustion area of the unit heater
  - Sealed combustion air and burner compartments for optimum performance and reliability
  - Combustion air intake box may be rotated 180 degrees to facilitate top or bottom combustion air piping installations

## FEATURES AND BENEFITS

### HEATING SYSTEM (continued)

- 6** **Combustion Air Inducer**
- Prepurges heat exchanger and safely vents combustion products
  - Operates only during heating cycle
  - Blower motor has ball bearings and is thermally protected

#### **Pressure Switch**

- Pressure switch prevents unit operation in case of blocked inlet or flue outlet

#### **Limit Control(s)**

- Factory installed and accurately located
- Limit control has fixed temperature setting and protects heating system from abnormal operating conditions

#### **Flame Rollout Switch**

- Automatic reset switch is factory installed on the top of the burner box

### **Optional Accessories**

#### **Natural Gas to LPG/Propane Conversion Kit**

- Required for field changeover from natural gas to LPG/Propane

**NOTE** - See Optional Accessories - Gas Heat for proper kit selection at different elevations.

#### **High Altitude Conversion Kit - Natural Gas**

- Required on all units for proper unit operation at altitudes from 5001 to 10,000 ft. (US) and 7501 to 10,000 ft. (Canada)

#### **High Altitude Pressure Switch Kit**

- Required for proper unit operation at various elevations

### CONTROLS

- 7** **Combination Ignition/Fan Timer Control**
- Electronic direct spark ignition control provides positive and safe main burner ignition
  - Spark is intermittent and occurs only when required
  - Separate electronic flame sensor control assures safe and reliable operation
  - Should loss of flame occur, flame sensor controls will initiate 5 attempts at re-ignition before locking out unit operation
  - Control board contains all necessary controls and relays to operate unit
  - Includes: Fan timer control - fan on 30 seconds (fixed), fan off 150 seconds (fixed), terminal strip plug for thermostat connections, diagnostic LED for troubleshooting
  - Direct plug-in wiring harness

#### **Transformer**

- 120V/24V transformer furnished as standard

### **Optional Accessories**

#### **Remote Diagnostic LED Kit**

- Allows for remote status updates and diagnosis of the unit

#### **Thermostats**

- For thermostat options, see Optional Conventional Temperature Control Systems on Page 8

### VENTING

- Units may be vented horizontally or vertically
  - **Residential Vertical Venting** - Units are approved for installation when vented in compliance with the latest edition of the National Fuel Gas Code (NFPA 54 / ANSI Z223.1) in the USA and with CSA-B149.1 codes in Canada
  - **Residential Horizontal Venting** - Units are approved for residential installation only with UL listed, Cat III stainless steel vent kits
  - **Commercial Vertical Venting** - Units are approved for installation with single wall metal vent pipe
  - **Commercial Horizontal Venting** - Units are approved for single-wall metal vent pipe or optional UL listed, Cat III stainless steel vent kits

**NOTE** - See installation instructions for detailed venting requirements.

### **Optional Accessories**

#### **Horizontal Vent Kits**

- UL listed, Cat III stainless steel vent kits are required for horizontal venting
- Available for upward or downward slope
- Vent kits snap together
- Kits include unit transition, vent termination and wall thimble
- Upward slope vent kits have a drain connection
- Provisions for hanging must be field supplied
- Optional 45° or 90° elbow available for ease of vent connection
- Straight pipe sections in various lengths are available

**NOTE** - See Horizontal Vent Kits / Elbow table for Horizontal Vent Kits and accessories on Page 5.

**NOTE** - See drawings for additional information.

#### **Vent Adaptor Kits**

- Vent Adaptor Kits (Upslope and Downslope) for 4 inch unit flue pipe to 3 inch Category III vent pipe

### DIRECT DRIVE FAN

- 8**
- Efficient and quiet operating direct drive propeller type fan
  - Permanently lubricated fan motor

## HORIZONTAL VENT KITS AND ELBOWS

REQUIRED FOR RESIDENTIAL HORIZONTAL VENTING APPLICATIONS

Unit Heater Model No.	Vent Diameter (in.)	Upslope Vent Kit Catalog No.	Downslope Vent Kit Catalog No.	45° Elbow Catalog No.	90° Elbow Catalog No.	<sup>1</sup> Minimum Vent Length (ft.)
LS25-30A, LS25-45A	3	75W62	75W66	87W79 (Optional)	75W70 (Optional)	5
LS25-60A, LS25-75A LS25-90A, LS25-105A	4	75W63	75W67	87W80 (Optional)	75W71 (Optional)	5

<sup>1</sup> Length does not include termination (or elbow if used).

## STRAIGHT VENT PIPE - FOR HORIZONTAL VENTING

Unit Heater	Vent Diameter (in.)	Length (in.)	Catalog No.
LS25-30A, LS25-45A	3	6	75W74
	3	12	75W75
	3	36	75W76
LS25-60A, LS25-75A LS25-90A, LS25-105A	4	6	75W77
	4	12	75W78
	4	36	75W79

## VENT ADAPTOR KITS (FOR RETRO-FIT INSTALLATIONS)

Unit Heater	Description	Catalog No.
LS25-30A	Vent Adaptor Kit (Upslope) - 4 inch unit flue pipe to 3 inch Category III vent pipe	19V95
LS25-45A	Vent Adaptor Kit (Downslope) - 4 inch unit flue pipe to 3 inch Category III vent pipe	19V96

## INSTALLATION CLEARANCES

	in.	mm
Top	1	25
Side opposite control box/access panel	1	25
Control Box/Access Panel Side	24	610
Back	18	457
Bottom	1	1
<sup>1</sup> Flue	6	152

See Installation Instructions for further installation considerations.

<sup>1</sup> Single-Wall vent clearance. Type B Double-Wall vent clearance is in accordance with the manufacturer's listing.

## MAXIMUM MOUNTING HEIGHT

LS25-30-45-60-75	10 ft.	3 m
LS25-90-105	12 ft.	3.7 m

## MAXIMUM HORIZONTAL VENT LENGTHS

No. of Elbows	Maximum Length (feet) of Straight Vent Pipe
1	25
2	20
3	15
4	10
5	5

NOTES - Minimum horizontal vent length is 5 ft.

Horizontal venting requires the use of a UL listed, Cat III Horizontal Vent Kit and Vent Pipe.

Horizontal venting must terminate in a tee.

Maximum total length of vent pipe must not exceed 30 ft.

One elbow is equivalent to 5 ft. of vent pipe.

**Residential Vertical Venting** - Units are approved for installation when vented in compliance with the latest edition of the National Fuel Gas Code (NFPA 54 / ANSI Z223.1) in the USA and with CSA-B149.1 codes in Canada

**Residential Horizontal Venting** - Units are approved for residential installation only with UL listed, Cat III stainless steel vent kits

**Commercial Vertical Venting** - Units are approved for installation with single wall metal vent pipe

**Commercial Horizontal Venting** - Units are approved for single-wall metal vent pipe or optional UL listed, Cat III stainless steel vent kits

## OPTIONAL CONVENTIONAL TEMPERATURE CONTROL SYSTEMS

### CS7500 Commercial 7-Day Programmable Thermostat

- Four-Stage Heating / Three-Stage Cooling
- Universal Multi-Stage
- Intuitive Touchscreen Interface
- Automatic Changeover between Heating and Cooling
- Full Seven-Day Programming
- Four Time Periods Per Day
- Temperature and Humidity Control
- One-Touch Away Mode
- Holiday Scheduling
- Smooth Setback Recovery (SSR)
- Performance Reports
- Notifications/Reminders
- Economizer Relay Control
- Backlit Display
- Wallplate Furnished
- FDD, ASHRAE and IECC Compliant

### CS3000 Commercial 5-2 Day Programmable Thermostat

- Two-Stage Heating / Two-Stage Cooling
- Conventional Systems
- Intuitive Interface
- 5-2 Day Programming
- Program Hold
- Remote Indoor Temperature Sensing
- Smooth Setback Recovery (SSR)
- Economizer Relay Control
- Maintenance/Filter/Service Reminders
- Backlit Display
- Wallplate Furnished
- Simple Up and Down Temperature Control
