Receiver & Display Unit Installation

Installation

- 1 Remove the receiver & display unit cover by using the tab on its bottom.
- 2 Open the receiver & display unit.
- 3 Connect the end of the connector wire to the receiver & display unit and connect the other end of the wire to the DISPLAY connector of Indoor PCB as shown in figure.

CAUTION

- Do NOT keep the receiver & display unit cable with a 220V cable because the remote controller cables have low voltage.

4 Secure the receiver & display unit on the wall with two screws.

5 Reassemble the receiver & display unit cover.

CAUTION

- The receiver & display unit must be installed by an installation specialist.
- Before installing the receiver & display unit, ensure that you have turned off the main power.
- All receiver & display unit cables should be installed according to the national wiring rules and you must install it in the wall not to be touched by users.
