

POINT-OF-USE
WATER HEATERS

Hot water,
right where you
need it.

With a compact and versatile design, Lennox point-of-use water heaters are ideal for tight spaces and single-point applications like under a sink or in remote areas of your home. Get on-demand hot water exactly where you need it, without the wait or water waste.

No Worries. It's a **LENNOX**™

POINT-OF-USE WATER HEATERS

Reliable hot water for everyday life.

Compact Design

Compact design for versatile installs

The small footprint of this point-of-use water heater makes it **ideal for tight spaces** and other single-point applications where you might want hot water quickly, like remote bathrooms, garages, and other add-ons, **eliminating wait time and water waste.**

Durability

Engineered to last

Designed to provide years of trouble-free service, our water heater tanks are made of high-quality, heavy gauge steel and glass-lined with **PermaClad™ for optimum corrosion protection.** A magnesium anode rod and **SediMotion™ system** prolong tank life and reduce sediment build-up inside the tank, improving the efficiency and lifespan of your water heater.

Efficiency

Insulated for efficiency

Designed with a 1-inch-thick, environmentally-friendly foam insulation that maximizes heat retention, **increasing energy efficiency and reducing fuel costs.**

Capacities

Options to meet your hot water needs

This water heater is **available in 2.5 to 20* gallon capacities**, giving you the flexibility to choose a model that best fits your application and hot water usage.

Safety

Built-in protection

A surface mounted thermostat automatically adjusts the temperature of your water heater and works together with a manual energy cut-off to prevent overheating, ensuring efficient and safe operation.
